

Hello and welcome to the Daziran Integrative Health. We are privileged to be a part of your healing team. For most people, the naturopathic experience will be quite different than the conventional medical system to which they are accustomed. Your initial visit will include a consultation, detailed history, relevant physical exam, screening diagnostics and naturopathic assessments. Other lab work may be requested depending upon your specific presentation and concerns.

Your second visit, usually two weeks later, will include a detailed report of findings and your individualized treatment plan will be discussed. Also, any remaining portion of the relevant physical exam will be completed on this visit. Treatment plans may include dietary changes, botanical/herbal medicine, nutritional supplementation, homeopathy, or hydrotherapy

Subsequent visits are typically every 4 to 6 weeks, though may be more frequent if your case requires active treatments or close follow-up. As you start to experience greater health and wellness, an office visit every three months is recommended for general health maintenance and disease prevention. If ever an acute, non-emergency condition occurs, please call the office as naturopathic treatments may be indicated.

At Daziran, we attempt to treat the whole person with an emphasis on the cause of their concerns, not just the symptoms. Our treatment plans are gentle and non-invasive, working with the body's inherent ability to heal itself. Client education is strongly emphasized as it encourages our patients to become invested in their health and therefore increases the likelihood of a successful outcome.

Contrary to what you might think, naturopathic care does not need to be practiced in isolation. Many of our clients with pre-existing medical concerns and subsequent treatment seek out our services to best ensure that all their health needs are met. We look forward to continued professional relations with the medical community so that our patients get the best of what both approaches have to offer. An integrative approach to health is an essential part of building happy and healthy communities.

With all this in mind, please take a few minutes to answer the following health questionnaire openly and honestly. Our ability to treat you with the best that naturopathic care has to offer depends on it. Additionally, please include a copy of your most recent lab work or imaging studies as these will help direct the course of your individualized treatment.

Looking forward to meeting you,

Dr. Marika Geis, BSc, ND
Daziran Integrative Health

**INFORMED CONSENT
FOR NATUROPATHIC DIAGNOSTIC & TREATMENT PROCEDURES**

Your signature is required before any treatment is rendered. Your signature acknowledges the following:

1. You are ultimately responsible for your own health.
2. It is your responsibility to inform your Naturopathic Doctor of: any medical conditions or allergies that you are suffering from; any medications/supplements that you are currently taking; and if you are pregnant, may be pregnant, or if you are breast-feeding.
3. While changes in habits are not a prerequisite for treatment, failure to follow the recommended nutritional and lifestyle programs could undermine the expected results.
4. You understand that that it takes time to feel better when using naturopathic medicine. You accept that positive changes will occur more rapidly with increased compliance.
5. You are accepting or rejecting this naturopathic medical care of your own free will and choice. You are free to withdraw your consent and to discontinue treatment at any time.
6. You accept full responsibility for any fees incurred during care and treatment and agree that payment is due when services are rendered. You acknowledge that canceling or rescheduling appointments must be done 24 hours in advance. Please see attached cancellation policy for clarification of fees.
7. If you have any questions regarding your treatment program, it is your responsibility to clarify these issues with your Naturopathic Doctor.
8. Naturopathic Doctors (ND) are not Medical Doctors (MD). Therefore, if standard medical treatment (drugs, surgery, etc.) is necessary, it must be obtained from a Medical Doctor.
9. You are not an agent of any private, local, county, provincial or federal agency attempting to gather information without stating your intention to do so.
10. There are some slight health risks associated with treatment by naturopathic medicine. These include but are not limited to: pain, bruising, or injury from acupuncture or injections; allergic reactions to certain supplements and herbs; and aggravation of pre-existing symptoms.

I, _____ (please print),

have read, understood, and acknowledge the above statements.
